brant and other water fowl only be-  
tween Sept. 1st and April 15th of  
each succeeding year.

You must not kill wild geese,  
ducks, brant and other water fowl  
after sundown, or before sunrise of  
each succeeding day.

You must not kill wild geese,  
ducks or brant or other water fowl  
from any steamboat, sailboat, elec-  
tric or gasoline launch, or from any  
sink box or sneak boat or artificial  
blind in the open waters of this  
state.

Blinds may be built on the shore,  
or in the canes, reeds, willows, brush,  
wild rice or other vegetation, but not  
out in the open waters.

You must not kill wild geese,  
ducks, brant, quail, prairie chicken,  
grouse or squirrel for market or com-  
mercial purposes.

You must not sell or have in pos-  
session for the purpose of selling or

more than thirty-five wild ducks,  
geese or brant, or more than twenty-  
five quail or game birds of any other  
kind in one day.

You must not kill, expose or offer

You must not kill, catch or have in  
possession, living or dead, any wild

the same during the first two days of  
the open season.

Inhabitants of this state can re-

of such states, and expose and sell on  
the market in said villages and cities  
such game between the 1st day of  
October and the 1st day of February  
of the following year.

All license, whether resident or  
non-resident, expire on the first day  
of June of each year.

You must not use, or attempt to  
use, the license of another person, or  
in any manner make any changes in  
any license for the purpose of trans-  
ferring the same, under penalty of  
prosecution for forgery.

Owners of farm lands, their chil-  
dren or tenants, can hunt and kill  
game on their own farms during the  
open season when it is lawful to kill  
game, without procuring such resi-  
dent license, but they must not hunt  
beyond the lines of their own farm  
lands without a hunter's license.

You must not use any forest at  
any time or under any circumstances  
for the purpose of hunting, captur-  
ing or killing any game, animals or  
rabbits in this state.

You must procure a license before  
hunting rabbits, but they may be  
killed and sold in any number and in  
all seasons of the year.

It's pretty hard to attend to duties  
with a constantly aching back.  
With annoying urinary disorders,  
Doan's Kidney Pills make work easier.  
They cure backache.  
They cure every kidney ill.

William T. Gibbons, of 123 East Vol-  
cott street, says: "For a long time my  
back and loins have ached through the  
small of my back, so that frequently I  
could hardly get up or down, and often in  
the mornings I had to roll over and take  
hold of the bed to help myself up. I had  
so severe an attack that for several days  
I was laid up and unable to work. I was  
advised to try Doan's Kidney Pills. So I  
went to the drug store of Dr. H. Lee  
Hatch and procured a box. They helped  
me almost at once, strengthening and re-  
newing my back."

## RAILROAD NEWS NOTES

Another Burlington Rumor—  
Accident Bulletin Issued by  
Interstate Commission—Age  
Limit Still in Effect on Alton  
—Items of Interest and Per-  
sonal Mention.

It is rumored that the Burlington  
is trying to buy the branch line of  
the C. P. & St. L. between this city  
and Havana. A party of company  
officials, among whom were Vice  
President J. D. Beeler of Gales-  
burg, General Manager J. M. Grub-  
ber, Chief Engineer Brockbridge  
and General Superintendent H. D.  
Tudson, visited Havana recently and  
it is thought that they were looking  
for a site across the Illinois river.  
The road owns several hundred acres  
of splendid coal land in the vicinity of  
Centralia. They have a round about  
way of getting it to the main line  
at present, as it is shipped through  
this city to Concord and is then taken  
to Galesburg on the main line.  
If they could purchase the C. P. &  
St. L. between here and Havana it  
would give them a direct line. The  
Narrow Gauge line, which runs from  
Galesburg to Havana direct is owned  
by the C. P. & St. L. branch con-  
nections could be made with the Narrow  
Gauge road and a direct line would  
be the result.

—(o)—  
Accident Bulletin No. 15, which has  
just been issued by the interstate  
commerce commission, giving an ac-  
count of railroad accidents in the  
United States during the months of  
January, February and March, 1905,  
shows that during that quarter there  
were 28 passengers and 204 employees  
killed and 1,651 passengers and 2,002  
employees injured in train accidents,  
making in all 232 persons killed and  
3,713 injured in train accidents.

Other accidents to passengers and  
employees, not the result of collisions  
or derailments, bring the total num-  
ber of casualties up to 15,300 (900  
killed and 14,397 injured).

There is a decrease of 42 in the  
total number of persons killed, as  
compared with the quarter ending  
Dec. 31, 1904.

The total number of collisions and  
derailments was 5,108 (1,787 colli-  
sions and 1,321 derailments), of which  
284 collisions and 177 derailments af-  
fected passenger trains. The damage  
to cars, engines and roadway by these  
accidents amounted to \$2,440,248.

There is an increase of 27 in the  
number of collisions and of 131 in the  
number of derailments, as compared  
with the last preceding quarter.

The total number of employees re-  
ported killed in coupling and un-  
coupling cars during this quarter was  
92, being a decrease of nine as com-  
pared with those reported killed in  
the last preceding quarter.

—(o)—  
An item has been floating through  
the Illinois press for several weeks  
to the effect that the Chicago &  
Alton, which was one of the first  
roads to adopt the plan of employ-  
ing men 35 years or less, has raised  
the age limit and hereafter older men  
will have a chance. Superannuated  
employees will be given a chance to re-  
tain their positions. Inquiry among  
the local officials concerning the fore-  
going announcement developed that  
it was not true and that the age limit  
was still in effect so far as it applied  
to new men. The officials say that  
the company has never been arbitrar-  
y concerning the age of the older  
employees except where they have  
been incapacitated from work, and  
that where employees are able to keep  
up with the younger men that they  
need have no fear of dismissal. In  
the section and round house depart-  
ments no question has ever been ask-  
ed concerning the age of a prospec-  
tive employee, but in the train and en-  
gine department the company still fa-  
vors the men of 35 or younger. The  
argument is that a man who desires  
service as a fireman or brakeman,  
who is up to 35 will not have the am-  
bition that marks the youth of 18 to  
25, and therefore may prove less  
valuable to the company.

TRUTH ABOUT MELONS  
Speaking of the melons now sold in  
baskets, a local dealer said the other  
day:

"The genuine Rocky Ford melons do not  
appear on the market until the middle of  
August. Those now being supplied are  
grown from Rocky Ford seed, but in a  
soil not as favorable. Nowhere has  
there been found soil so peculiarly  
adapted to the growth of these melons  
as that adjacent to Rocky Ford, Colo-  
rado.

"The melons grown there are not cantal-  
oupes; neither are they muskmelons.  
Both of these terms are incorrect. In  
fact there are no cantaloupes or musk-  
melons offered on the market. What is  
popularly known as the cantaloupe is  
really a 'gem melon' which is the result  
of 'crossing.' The real muskmelon is  
yellow, inside and out, while the genuine  
cantaloupe is a large melon—several times  
larger than the gem melon. A peculiar  
fact concerning the attempt to grow  
Rocky Ford melons in other soil is that  
though the first year's growth is similar  
to the Colorado melons, the second year  
the seed of the previous growth produces  
the real cantaloupe. Consequently in  
growing these melons in other localities  
it is necessary to obtain each year a new  
supply of seeds from the genuine Rocky  
Ford variety. If the melons you are  
eating just now do not taste just right,  
remember there is no gem melon to com-  
pare with Rocky Ford, and they will not  
be here until about Aug. 15."

## REDDICK'S ANSWER.

Chicago, July 27.—Immediate acceptance of the position of public administrator of Cook county and qualification thereof was County Chairman James Reddick's reply to day to stories emanating from friends of Senator Cullom that the Republican leader was at odds with Governor Denison.

Mr. Reddick had expected to delay qualifying until his return from Atlantic City, but the activity of the Gullion forces caused him to make the most emphatic reply in his power. Senator Cullom denied any knowledge of the appointment of H. O. Wade as bailiff for Judge Bethen. The senator said he had been informed that Mr. Wade was appointed by United States Marshal John Ward and had continued in office ever since. He is a cousin of George Grosscup. As to his transfer to Judge Bethen's court, the senator supposed it had been done in the usual course of business.

## ART DEPARTMENT ESTABLISHED AT ILLINOIS COLLEGE.

Announcement is made that an art department has been established in connection with the work of Illinois college. Miss Wilhelmina Coultas, already well known in Jacksonville for her training and skill in art, has been engaged to take charge of the department. Miss Coultas has had several years of training under some of the best artists in America. She studied for a number of years at the Art Institute in Chicago, being a member of the advanced life class under J. H. Vanderpool. She has likewise worked with Frank Duveneck at the Academy of Fine Arts in Cincinnati, and under William M. Chase at the New York School of Art. Her studies have included a thorough course in drawing and painting from life (head, figure and costume), still life, and landscape work. Miss Coultas will have her studio at Academy hall and the work will commence with the opening of the fall semester in September. It is expected that this department will become a strong feature of the work of the college.

## WORK FOR PROSPECTIVE STUDENTS.

Numerous inquiries are being received from prospective students by Illinois college regarding the possibility of securing some kind of employment to help defray the expenses of a college education. These requests come for the most part from very worthy young men and young women, anxious to get a college education, but whose means are limited. They are willing to undertake almost any kind of work. If any friends of education know of opportunities whereby such students could earn part of their expenses, will they please communicate the information to President Rammelkamp or Mr. Arthur Carriel, of the college Christian association?

"The Mutual Reserve." After all, what's in a name?

The sultan and the czar have exchanged congratulations, but it is over a mighty poor subject.

The new chief of police of Chicago is proving a verification of the old saw, "A new broom sweeps clean."

The "Yellow Peril" has arrived in greater fury than even the pessimists predicted.

It may be well to remark that the president has not "taken" to the woods.

In its incipency frenzied finance was a theory; now it is a condition that confronts us.

Maybe young Zeigler is waiting for the opportunity of organizing a relief expedition.

The first meeting of the peace conference is to take place on the "Mayflower." We hope nothing will transpire to nip it in the bud.

The hermit kingdom of Corea has bobbed up serenely and asked to take a puff of the pipe of peace at the forthcoming conference.

If the reign of General Prosperity continues much longer it will be a hard proposition even to keep the lid on the full dinner pail.

China has come forward and put in a claim of \$100,000,000 indemnity. Under present conditions the best representative Russian can have at the peace conference is a lawyer who is well posted on the legal question of the measure of damages.

The auto resembles the mythological character Achilles, in that it has one vulnerable spot, and, like Achilles, the spot is located in the feet. When the poisoned arrow of Paris pierced the hero's heel he fell mortally wounded near the Senean gate. When the bullet from the revolver of the Evanston policeman pierced the heel of the auto it also fell by a gait.

The sanitary commission of New Orleans discovered a full grown cow in the third story of a rickety shack in the Sielien quarter. The stairs leading up to the third story would hardly bear the weight of a man and the question arose as to how the Sicilian got the quadruped into the building. It developed that the man had bought the creature when a calf. Here is a controversy of the doctrine, "He who sticks to the cow path may drink lots of milk, but he will never wear diamonds." This man eliminated the path.

The New York broker who has refused to contribute to the support of his destitute mother, who lives in a tenement house, while he has his apartments at the Waldorf Astoria, is a victim of degeneracy that is a blot on any civilized community. The merits of the case, be they what they may, should not enter into the issue, the simple fact that one is mother and the other is son should be the only circumstance that would be necessary to make forthcoming the relief. Shame on the man who is so devoid of feeling and so lacking in pride that he will allow publicity to be given to a relationship of such a character, when the exposure could be avoided for a few paltry dollars. Affections between mother and child may be alienated and one or both may be to blame, but facts of this kind sink into insignificance beside the great fact of relationship whose sacred tie, if broken, both persons should save from exploitation.

Prominent Democrats over the country are becoming art students in the art of diplomacy. Whenever one of them is invited to speak at a banquet he directs his attention toward preparing a speech that will be full of words, but not of meaning. The average Democratic gathering is so well represented by factions that it is difficult to advance the proposition of two and two make four without treading on the toes of some of the auditors. Among recent departures from this fixed policy is Mayor Dunne of Chicago, who has with great boldness announced that factional fights would not affect his forthcoming Boston speech. Democratic banquets have never been noted for their scintillation of ideas and the Chicago ex-judge should be careful in foisting his reformist notions too strongly on Democratic minds. Minds whose mental pabulum has been so tintured with Jeffersonian simplicity and Jacksonian heresy that they are unable to assimilate anything that even savors of the Rooseveltian article of diet, much

less the Republican menu of prosperity and progress. Reformers have ever been as high with our strenuous president, and if Mayor Dunne expects to work out his political salvation along similar lines he had better get in different company.

"The Crustless Bread Now."

Sherry is the first of the great enterers to take up the crustless bread idea, says the New York correspondent of the Pittsburgh dispatch. A machine for the baking of the bread is being installed in his establishment, and in a few days patrons will get the latest gastronomic novelty served to them as the upper and lower decks of sandwiches or in the form of toast. There is only one crustless bread oven now in operation. That is owned by the Jersey City baker who supplies the Pullman palace car people. In the process of baking crustless bread is kept moist and remains so for ten or twelve hours. It does away with waste due to cutting crust from the ordinary baked loaf, and the use of a damp cloth to keep the loaf moist and prevent curling up is avoided. When taken from the oven the crustless bread is covered with a sort of skin or silky texture, which amply protects the interior of the loaf and is easy to insulate.

Home-made Baking Powder.

The following recipe for baking powder is said to be entirely satisfactory for all kinds of foods requiring the use of baking powder: Bicarbonate of soda, four ounces; tartaric acid, three ounces; cream of tartar, half an ounce; cornstarch, eight ounces. Pulverize and mix thoroughly, then sift well about twelve times to make it light and fluffy.

Treatment For Eczema.

If your child is troubled with eczema always add a little oatmeal to the water in which you wash the parts affected, and never use a cheap soap. Cheap soaps may contain soda and potash, and these make the spots irritable and cause them to spread.

Washing Silk Lace.

After washing silk lace should be allowed to lie for half an hour in a little warm milk, to which a very little gum water has been added. Then squeeze nearly dry and iron on the wrong side on a board covered with several thicknesses of clean flannel.

Worms In Children.

When children at night will awaken screaming, as they sometimes do when suffering with worms, a drop of turpentine on a lump of sugar, or even the small of turpentine, will give relief at once.

Fried Green Peppers.

To prepare green peppers to serve with steak, dip them into boiling water for five minutes. Drain and halve them, remove seeds and white veins and fry quickly in a little butter.

Britannia Ware.

Britannia ware should first be rubbed with a soft cloth and sweet oil, then washed with soap and finally rubbed with chamomile and whiting.

HATCH'S BRIGHT IDEA.

There are few retail druggists who have better ideas as to how to successfully introduce a proprietary preparation than Hatch, one of the best known business firms in Jacksonville.

When the Dr. Howard company talked with Hatch in regard to introducing their Specific for the cure of constipation and dyspepsia, he advised them to sell their 60-dose size at the popular price of 25 cents. He told them that he could sell ten bottles at this price where he could sell one at 60 cents, and the result has proven his business judgment. The sales on this now famous Specific for the cure of constipation and dyspepsia have been so remarkably large that they have decided to make the price 25 cents in the future; not diminishing the amount of medicine that they put in each package (60 doses, a month's treatment). Dr. Howard's Specific is sold under Hatch's absolute guarantee to refund the money if it does not cure constipation, dyspepsia and all forms of liver trouble.

BETTER THAN SPANKING.

Spanking does not cure children of urine difficulties. If it did there would be few children that would do it. There is a constitutional cause for this. Mrs. M. Summers, Box 66, Notre Dame, Ind., will send her home treatment to any mother. She asks no money. Write her to-day if your children trouble you in this way. Don't blame the child. The chances are it can't help it.

Nothing Doing.

"Nothing doing" seems modern enough. Is it slang? In the "Creedy Papers" there is a letter written to Thomas Creedy by a Dr. Currie, dated May 1, 1806. He is referring to Napoleon: "We are all cursed flat here about the spumet negotiations. Nothing doing. Everything stagnated. We shall have war, because it is just the most absurd thing in creation."

## FISH IN DEATH FIGHT.

A crowd of people recently witnessed a fight to death between two black bass in an aquarium in the show window of a store at Peru, Ind.

A male bass weighing two pounds attacked another one that weighed two and a half pounds and finally killed it. The male bass made a nest in the aquarium and when the other fish came near the fight began. The water fairly boiled, with the fish darting higher and thither, and inside of ten minutes every fin and the tail of the larger bass were torn off by the smaller one.

After that the smaller fish frequently caught the larger one in its mouth and broke its bones. In a short time the cripple turned over and died. This is the third bass that has been killed by the two pound fish.—Indianapolis Star.

King and Journalist.

King Umberto I once exclaimed, "Were I not a king I should like to be a journalist." The ruler of Montenegro is both king and journalist. Professor Tomonowitch is the nominal editor of the Glas Zernagora, the leading newspaper in the country, but in reality the king is responsible for the editorial articles.

He has also written books, including two volumes of lyric poems. Several dramas from his pen have been performed. He is extremely liberal in his views and tries to be just toward all of his subjects, including the Turks. On one occasion when a Turk complained that he had been insulted because of his nationality and religion the king summoned the offenders and read to them a poem in which the achievements of the Turks are extolled.

Old Mother Nature, M. D.

After careful study the New York health department announces that the most efficient remedy in cases of "spotted fever" is fresh air. It is curious to note the slow, steady progress of the medical profession toward reluctant belief in natural remedies. There is some ground for hope that our doctors may some day approach the system of the Chinese practitioners. In China, as you may recall, the doctor is paid as long as his client is well. When the client becomes a patient the pay is stopped and is not resumed until he is well again.

Doctors ought to be preventers, not cures; advocates of fresh air and simple diet and regular sleep and exercise, not of drugs and incantations.—Saturday Evening Post.

Spain's Linguistic King.

King Alfonso has a fair claim to be regarded as the best educated of our crowned heads. He is a linguist, being familiar with French, Italian, German and English. He never travels without Goethe, Schiller and the Austrian poet, Grillparzer, whose name will be new to most people. Of the ancient classics King Alfonso prefers Horace, many of whose odes he has translated into Spanish. Moreover, he revels in mathematics and history and adores drawing. What attention he has paid to English literature is not made public.—London Chronicle.

She Knew Napoleon.

There are very few people now alive who saw and conversed with the first Napoleon. A St. Helena newspaper records the recent death of a Mrs. Mary Smith at the age of ninety-five. In her girlhood she was a member of the household staff at Longwood, the home of the exiled emperor. She knew both Napoleon and his jailer, Governor Sir Hudson Lowe. Some twenty or thirty years ago there were still a fair number of people living in St. Helena who remembered Napoleon.

Forks For Butchers' Customers.

The butchers of Tottenham, in London, in terms of a circular just issued by the medical officer to the district council are, with the view of preventing contamination by handling of meat exposed for sale and of preventing the spread of infectious diseases, requested to provide a suitable supply of forks wherewith intending purchasers may make examination of meat before buying.

## CONDENSED STORIES.

How the Bishop Was Seasoned to Suit His Taste.

The late Bishop Green on one of his diocesan visitations stopped with an old friend at Sevanee, Tenn.

At the early supper of the south, always a most informal meal, the bishop said he would have nothing but a dish of bonny-clabber, a little nutmeg sprinkled over.

"There ain't a bit of nutmeg in the house," exclaimed the maid.

"Dear me," said the hostess, sotto voce. "Go to Mrs. Darlington next door and ask her for a nutmeg."

Mrs. Darlington also was out of nutmeg.

"Then go to Mrs. Harding on the other side. We can't all be out at

SHE SEASONED THE BISHOP'S DISH.

once. Then bring the bishop the dish quickly."

The hostess kept up a rapid fire of bright talk to cover over the hiatus in the service until the maid appeared with the desired dish.

"What an addition is the little sprinkle of nutmeg," said the bishop. "What a fine relish it gives."

When the good guest had retired the mistress said to the maid:

"Go to the supply store the first thing in the morning and get nutmegs and return the nutmeg to Mrs. Harding and—"

"But Mrs. Harding was out of nutmeg too."

"Then where did you get any?"

"La, miss, I was that worried out that I jest tuck a wooden handle to a ole shoe buttoner an' grated it on."

And the bishop had relished it. So much for the power of suggestion.—Lippincott's Magazine.

## Medical Ignorance.

The late Jay Cooke was talking one day about General Grant.

"General Grant," he said, smiling, "once described to me an illiterate surgeon in the employ of a certain northern regiment.

"A promising young officer had been wounded, and this surgeon had dressed his wounds. General Grant sent for the surgeon later to ascertain the young officer's chances.

"He is wounded," said the surgeon to the commander in chief, 'in three places.'

"Are these wounds fatal?" General Grant asked.

"The surgeon nodded a grave assent.

"Two of the wounds are fatal," he said. "The third is not. If we can leave him to rest quiet for awhile, I think he will pull through."—New York Tribune.

Governor Marcus Morton's Rents.

The late Governor Marcus A. Morton, whose old home in Taunton is now the Morton hospital, was as careless in his dress as he was punctual in collecting his rents. It was no uncommon sight to see him walking the streets without stockings, the expanse between the bottom of his trousers legs and his shoes revealing that fact.

One day as the governor passed down the street a flutter of white beneath his coat tails gave mute testimony of the need of repairs in which his trousers stood. In a group of idlers was a wag who was also one of the governor's tenants.

"Great horn spoons!" he shouted as the governor passed. "I never knew Governor Morton let his rents get so far behind!"—Boston Herald.

## Thoroughly Equipped.

The late Thomas B. Reed sometimes evolved very complicated jokes, but this one of Governor La Follette's is as roundabout as any of his.

"I saw him," he said, referring to one of his political opponents who is celebrated for his occasional eccentricity, "sitting out in his back yard in a wagon box, which rested on the ground quite unattached to anything. But yet he was quite ready for a drive."

"How?" asked a friend. "If he had no animal and the wagon had no wheels, how?"

"Oh," said La Follette, "the last election was a horse on him, and he has wheels in his head quite handy."—Judge.

## PEOPLE OF THE DAY

The Cotton Leak Affair.

As a result of the recent cotton leak by which certain interested persons secured advance information of the government's crop report a new system of preparing these reports has been put in force by Secretary of Agriculture James Wilson. This new system, devised since the cotton investigation began, is right in the extreme. The assistant secretary, chief statistician and experts of the department are placed in a room under lock and key and are not permitted to come out until 4 o'clock in the afternoon. The telephones in the room are disconnected and careful scrutiny is kept of the windows to avoid possibility of the use of private signals.

Secretary of Agriculture Wilson, who before the recent disclosures was positive that nothing short of a miracle could produce a "leak" in the depart-

ment, has passed to the opposite extreme. His faith in his system was rock bound.

James Wilson has been secretary of agriculture since 1897. He is a native of Ayrshire, Scotland, and came to this country with his parents in 1852, settling in Connecticut. Three years later, when twenty years of age, he went to Iowa and engaged in farming. He was several times elected to the legislature of Iowa, serving one term as speaker of the house, and from 1873 to 1877 was a member of the United States congress. Secretary Wilson has been a student of agriculture since his youth and for six years prior to his entering the cabinet he was director of the Iowa agricultural experiment station and professor of agriculture at the Iowa Agricultural college at Ames.

## Mitchell of Oregon.

Senator John H. Mitchell of Oregon, who has just been convicted at Portland for participation in public land frauds against the government in Oregon, has for more than forty years been a political power in the state of his adoption. Senator Mitchell was born in Pennsylvania and went to Oregon forty-five years ago, when he was twenty-five years old.

Mitchell's opportunity for political preferment came soon after he arrived in Portland. A movement was inaugurated for the establishment of a Pacific coast republic, which, on account of the civil war then raging in the east, became a formidable one. This far-

seeing man espoused the side of the government and worked heroically against the secessionists.

Honors came to him in rapid succession as a consequence. He was elected city attorney of Portland, and a year afterward was sent to the state senate. Two years later he was elected president of the senate, and in 1890 was defeated for the United States senate by only one vote. But he was successful in 1898, was defeated by a narrow margin in 1878, but was again successful in 1888, and in 1891 was chosen for a third term. The gold Republicans defeated him in 1897, but again he triumphed in 1902. Senator Mitchell was twice married, the second time to Miss Martha Price of a well known Oregon family. A boy and two girls resulted from this union.

# Bakers' Marks

There is a story of an old lady who made up a batch of mince and apple pies. Wishing to be able to distinguish one kind from the other she marked the mince pies **T M** for "tis mince" and the apple pies **T M** for "taint mince."

The baker's marks on the ordinary run of bakery products are of little more value for purposes of identification than the marks on the old lady's pies.

But **HERE** is a trade mark that really identifies—that enables you to distinguish the world's best baking—the Biscuit, Crackers, and Wafers made by the NATIONAL BISCUIT COMPANY. This trade mark appearing in red and white on each end of a package guarantees the contents to be of highest quality—pure, clean and fresh. To learn something of what this trade mark means try a package of either of the products mentioned below.

**Lemon Snaps**

An appetizing nibble with the flavor of the refreshing lemon. A revelation in modern baking.

**Butter Thin Biscuit**

Unique little biscuit, in much favor with those who want "something different."

**Graham Crackers**

Possessing the rich, nutty flavor of graham flour—unlike any graham crackers you ever tasted.

**NATIONAL BISCUIT COMPANY**

## Summer Disorders

Watch your child's health carefully during the summer months. At the first sign of any hot weather trouble—stomach disorder, diarrhea, irritability and fretting, colic, restlessness at night—remember the safest and surest remedy is

## KICKAPOO WORM KILLER

It cures by purifying the blood and toning the system. Truly remarkable in keeping children healthy and happy during the hot months.

"Kickapoo Worm Killer certainly saved my little daughter's life. She was troubled for over three months with summer complaint and stomach disorder. She had diarrhea and frequently vomited. Her digestive organs were weak and she could retain no medicine. I tried Kickapoo Worm Killer. This wonderful remedy not only agreed with her, but it strengthened the stomach, so the functions of nature performed their work easily. Within two weeks she was healthy and happy as could be."

MRS. MORA HILL, 452 North Clark St., Chicago.

A positive cure for Worms. Contains no Alcohol nor any other dangerous drug. Candy tablets, absolutely harmless. 25 cents a box—druggists or by mail.

They were very handsome and among them was a large set piece, a "Gates Ajar" from the car shop men.

### PLEASANTLY SURPRISED.

Mr. and Mrs. T. F. Smith were most pleasantly surprised by about twenty-five of their friends who are members of the Tribe of Ben Hur No. 215, Friday evening. The merry crowd gathered at the Smith home, 232 West College street, early in the evening and spent the time with games, music and other amusements. C. D. Rigg and W. J. Brooks won the prize in the pie eating contest. The prize was a pie and the winners proceeded to eat it to show that they were game.

### DEMAND RICHARDS' HEAD.

Washington, July 28.—Upon the charge that Commissioner Richards of the general land office had played into the hands of the Mormons in the opening to settlement of the Unkiah Indian reservation in Utah, the Gentiles of Utah have demanded his removal. A formal request for his retirement is said to have been lodged with the president. Richards' statement accompanying the proclamation ordering the opening of the reservation said the land was practically worthless. This has been used by the Mormons to discourage Gentiles from taking up land. If the Mormons can control the large area of the reservation it will be a long step toward their absolute control of the state.
